ASPSC9180A

9180 UPRIGHT VACUUM 13"/11.5 AMPS QUIET CLEAN HEPA

- Sanitaire developed the SC9180 as an answer to clients asking for a low maintenance and versatile commercial vacuum.
- This is the ideal vacuum for those who need a full powered upright that is durable, has good filtration and hose for cleaning those hard to reach areas.
- Sanitaire took it a step further and added in HEPA filtration, a large 4 quart bag and even the ability to turn off the agitator brush. 4 level height adjustment means you can properly clean almost any carpet and by shutting off the agitator brush you can easily clean bare floors and delicate carpet.
- And like many other commercial vacuums this one also has an extra long 50 foot cord but unlike most it can be unplugged at the vacuum.

Specifications

Weight	24 lbs
