

Douceur

Fabric softener

TECHNICAL DATA SHEET

DESCRIPTION

DOUCEUR lubricant properties and electrical conductivity leave material fibers feeling smoother and prevent build-up of static electricity on clothing.

DOUCEUR is used to prevent static cling and make clothes dry faster and feel softer.

DOUCEUR improves iron glide making ironing clothes easier, increases fabric resistance to stains and reduces wrinkling, making your clothes feel better.

Thanks to **DOUCEUR**, clothes don't stick together when they're taken out of the dryer.

DIRECTIONS FOR USE

ALL FABRICS

IMPORTANT: Always add to the last clear rinse. Do not mix with any other laundry products (detergent, soap, bleach, bluing, etc.). Do not pour directly onto fabrics.

WRINGER WASHING MACHINE: Add 125 ml to final clear rinse. Let soak for 5 minutes.

AUTOMATIC WASHING MACHINE: Use 125 ml. Add to start of last complete rinse, or reset dial to final rinse and add.

HAND WASHING: Rinse garments thoroughly and let soak in basin of cool water with 30 ml of **DOUCEUR** for 3 - 5 minutes.

Consult a GILCO representative for more information.

PROPERTIES

Appearance :	Liquid
pH (1% solution) :	~7.0
