

Astra

Oven, Griddle and Deep Fat Fryer Cleaning Powder

TECHNICAL DATA SHEET

DESCRIPTION

ASTRA is a unique, easy to use blending of strong alkalis, chelating and wetting agents, especially formulated for fast cleaning of oven griddles, deep fat fryers, pots, pans, french-fry baskets, rotisseries, outdoor grills, etc. to nearly new condition. **ASTRA** is the fastest and most effective way to clean stainless steel and ferrous steel equipment to a bright new luster. **ASTRA** is excellent for quick heavy-duty cleanup in all restaurants and other areas where food is prepared.

ASTRA is unique in the fact that it will break and remove baked-on grease, carbon, grime, dirt, candy and coffee stains, fruit and food stains, liquor, lipstick, milk, oil, rust, soap scum, syrup, tea, tobacco, wine, etc.

DIRECTIONS FOR USE

Dilute 1 part of **ASTRA** with 1 part of water

Pre-heat surfaces to be cleaned to 81°C before cleaning, then shut-off before applying the product. **GRIDDLES**: Spray liberally or apply using a cloth or brush. Let the solution work for 5 to 10 minutes. Rinse with potable water. Neutralize with vinegar if desired. Wipe clean using a clean damp cloth. Apply thin coat of shortening.

COMMERCIAL OVENS: Spray liberally or apply **ASTRA** directly to walls, racks, burners, etc. Let the cleaner work 5 to 15 minutes. Scrape stubborn stains. **FRYERS**: Remove excess grease. Fill up to 6 cm from top using cold water. Add 125 ml of **ASTRA** per gallon of water. Let the solution boil for 30 minutes. Drain and flush off using hot water. Scrub the greasy residue while warm.

Consult a GILCO representative for more information.

PROPERTIES

Appearance :	Liquid
pH (1% solution) :	~13.5
Solubility :	Easy
Fragrance :	Typical
Color	Clear / light yellowish
