

# Citro-Neige (powder)

## Powder laundry detergent

# TECHNICAL DATA SHEET

### DESCRIPTION

**CITRO-NEIGE** is a powder laundry detergent, made of powerful surfactants, which can deeply penetrate stubborn stains and dingy build up of all kinds, lift them off and decompose them. **CITRO-NEIGE** emulsifying ingredients attack, divide and gently release oily soils, grease and grime from cloth fibers. **CITRO-NEIGE** sequestering and dispersing agents scatter emulsified soil particles in the cleaning solution and prevent their re-deposition on cleaned cloths until they are easily rinsed away by clear water.

**CITRO-NEIGE** contains special brighteners for whites and colors, as well as a fabric conditioner and a lemon scent that confers clothing and linens an additional freshness and softness.

**CITRO-NEIGE** is suitable for cotton or poly/cotton fabrics. **CITRO-NEIGE** low-foaming property makes it an ideal detergent for machine washing in institutions, laundries, food factories, supermarkets and restaurants etc.

### DIRECTIONS FOR USE

- For a small load, use 60 ml of **CITRO-NEIGE**.
- For a normal load, use 125 ml of **CITRO-NEIGE**.
- For a heavy load, use 250 ml of **CITRO-NEIGE**.

Consult a GILCO representative for more information.

### PROPERTIES

Appearance :	Powder
pH (1% solution) :	~7
Solubility :	Easy
Fragrance :	Lemony
Color	White

### PRECAUTIONS

#### PACKAGING CODE

10 Kg  
20 Kg
