

# GT-18

## Super Active Floor Stripper

# TECHNICAL DATA SHEET

### DESCRIPTION

**GT-18** effectively removes years of old multi-layer finish buildup, hardened by frequent burnishing, sealers and waxes, on both resilient and non-resilient flooring, vinyl, vinyl composition, vinyl asbestos, linoleum, marble, sealed terrazzo, concrete, asphalt and magnesite floors. It prepares vinyl and linoleum surfaces for floor finish application. For use with GILCO products **COSMOS-180**, **COSMOS-210**, **COSMOS-250** and **FUTURA CAST** floor finishes.

**GT-18** is specially formulated with surfactants and powerful solvents combined with penetrating amines that will quickly penetrate and liquefy modern hard-to-remove, detergent resistant, metal interlocked polymer finishes buildup on contact and give fast deep stripping action reducing the waiting periods for removal of the finish with or without the use of mechanical scrubbing .

**GT-18** is a synthetic base stripper with low ammonia odor, is low foaming, biodegradable, easy rinsing and does not damage vinyl or linoleum.

### DIRECTIONS FOR USE

1. Dilute 125 to 200 ml of GT-18 per gallon of hot water preferably.
2. To remove old wax, dilute 250 to 300 ml of GT-18, according to condition of the floor. Apply GT-18 on the surface to be stripped and let stand for approximately 5 minutes or more.
3. Then, scrub with a hard bristle brush or a floor-washing machine equipped with a nylon pad.
4. Pick up solution and rinse well.

Consult a GILCO representative for more information.

### PROPERTIES

Appearance :	Liquid
pH (1% solution) :	~8.5
Solubility :	Instant
Odor :	Light Ammonia
Color	Off White

### PRECAUTIONS

<b>PACKAGING</b>	<b>CODE</b>
4 L	
4 x 4 L	
20 L	
210 L	

Never pour partially used product back into the original container; it will contaminate the remaining product.  
 Do not use on food contact surfaces. Do not store in food processing or food storage areas. Do not contaminate food products.
