MIRACLEAN MAGIC ERASER WHITE - 12/PQT

- Lab tests show that a microfibre cloth needs up to 26 times more wiping cycles to remove marks, compared to Miraclean.
- And as Miraclean will do the job faster and with less effort, you save time and money.
- Another advantage is that Miraclean runs on water only, which has two positive aspects.
- You lower the overall costs for cleaning, and you eliminate the spraying of chemicals in the premises.

Specifications

Color	White
Material	Melamin Resin
Quantity	12 per pack
Manufacturer	Vileda
