

TECHNICAL DATA SHEET

NASJS1600C

SJS 1600C VAPOR CLEANING & DISINFECTING JETSTEAM 3.8 LT

- The Power Steamer JS1600 is a super heated dry steam cleaning machine that dissolves and emulsifies grease, mold and grime build-up, vaporizing and killing the bacteria from all types of surfaces and equipment, leaving them completely clean and sanitized.
- It can be used as a complete solution for hygiene throughout facilities, or in individual locations.
- It can be used to clean bathrooms, bedrooms, kitchens, fridges, ovens, toilets, beds, upholstery, tiles, windows, patient areas, and canopies.

Reservoir Size:4 Quart

Boiler Size:1.25 Quart

Boiler Construction:Stainless Steel

Heating Power:1500 Watts

Steam Temperature:338 Degrees F

Power Cord Length:8'

Steam Pressure:115 PSI

Voltage:120 V60 HZ

Weight:12 LBS

Width:20"

Height:16"
