

# Net-Brille

## Brightening Additive for Floor Cleaners

# TECHNICAL DATA SHEET

### DESCRIPTION

**NET-BRILLE** is an exceptional high solids metal interlocked styrene/acrylic copolymer additive that quickly and easily emulsifies with water and floor detergent solutions, transforming them into high gloss and low maintenance floor waxing cleaners that leave surfaces bright and shiny every time they are cleaned.

Applied with a mop or a floor finish applicator **NET-BRILLE** solutions clean and shine floor coverings such as vinyl, wood, ceramic, quarry tiles, stone, marble and other hard surfaces.

**NET-BRILLE** is the ideal product for surfaces that need to be refreshed regularly and rapidly for it revives faded gloss caused by daily traffic.

Frequent uses of diluted **NET-BRILLE**, leave no accumulation or residues on surfaces.

### DIRECTIONS FOR USE

Dilute **NET-BRILLE** according to the desired gloss. A higher concentration of **NET-BRILLE** gives more shine. The minimum dilution recommended is 10%. Apply on treated or non-treated surfaces with a mop or automatic scrubber.

Consult a GILCO representative for more information.

### PROPERTIES

Appearance :	Liquid
pH (1% solution) :	~
