

# NeuCal

## Calcium & Salt Remover – Carpets & Hard Surfaces

# TECHNICAL DATA SHEET

### DESCRIPTION

Because **NEUCAL** is 5% acetic acid, it will neutralize alkaline substances and destroy odor producing bacteria. **NEUCAL** is effective as a deodorizer and a neutralizer on hard surfaces & carpets, and can even be used in the bathroom, on counters or clothing (much like Vinegar).

**NEUCAL** main application is to remove salt and calcium stains formed by de-icing products, usually in high traffic areas, from carpets and hard surfaces.

**NEUCAL** works deep down to penetrate into the carpet pile or hard surface, remove the embedded soil and break down calcium and salt deposits. The abundant foam traps dirt and residues that were extracted, and holds it tightly until it dries. Then the dried foam and dirt can be vacuumed away together.

**NEUCAL** also eliminates calcium, lime and other alkaline deposits, and is thus very effective in the removal of hard water deposits.

### DIRECTIONS FOR USE

Add 1 part NEUCAL to 5 parts of water.

Apply directly onto stains with a mop or sponge.

Pick-up excess liquid with wet pick-up vacuum or sponge mop.

Consult a GILCO representative for more information.

### PROPERTIES

Appearance :	Liquid
pH (1% solution) :	~2.0
Solubility :	Instant
Fragrance :	Typical
Color	Yellow

### PRECAUTIONS

#### PACKAGING CODE

1 L

12 x 1 L

4 L

4 x 4 L

20 L

Do not use on food contact surfaces. Do not store in food processing or food storage areas. Do not contaminate food products.

ALL SURFACES SUBJECT TO CONTACT WITH FOOD MUST BE RINSED WITH POTABLE WATER BEFORE USE.
