

Solu-Sept

Solu-Sept is a biotechnological and readily biodegradable product containing bacteria and surfactants. These microorganisms digest the oils and fats and liquefy organic matter accumulated in septic tanks and septic field.

Solu-Sept is recommended to reduce organic matter and foul odours from septic tanks and septic fields of private residences, restaurants, and hotels.

Solu-Sept is easy to use. No mixing is required. Simply pour the recommended dosage into a drain or a toilet bowl connected to the septic tank.

For best results, make sure the septic tank was drained before the first application of **Solu-Sept**.

Characteristics:

Form:	liquid
Colour:	green
Fragrance:	pine
Contents:	bacteria and surfactants

Solu-Sept is safe and user-friendly. It contains no caustic, acid or corrosive products. It does not damage the ceramics, metals and plastics. **Solu-Sept** is **EcoLogo certified** and **Tested in laboratory**.

BENEFITS

- Speeds up the digestive process of organic matter built up in septic tanks
- Increases the efficiency of septic tank and reduces maintenance
- Leaves a protective film in the septic tank and the leach field
- Safe for the user and will not damage metals, ceramics or plastics
- A better option than harsh chemicals
- EcoLogo certified and Tested in laboratory
