

PURGEL # NPN 80098292

DESCRIPTION

Instant antiseptic gel. It looks like a fluid gel, made from ethyl alcohol. Even if there is no water around, it can be use as is, offering the same cleaning antiseptic effects. It is very handy in restaurant and food car service. It is very well appreciated in food industries, dental clinics, hospitals.

DIRECTIONS

For hands: Apply on clean and dry hands taking care of spreading PURGEL between the finger, around the nails and on the back of the hands. Rub thoroughly into hands for at least 30 seconds. Allow to dry

ADVANTAGES

1. PURGEL have very high antiseptics properties.
2. PURGEL quickly evaporates and doesn't leave greasy residues.
