

Vinegar

Acetic Acid - 5% Solution

TECHNICAL DATA SHEET

DESCRIPTION

Because **VINEGAR** is 5% acetic acid, it will neutralize alkaline substances and destroy odor producing bacteria.

VINEGAR is effective as a deodorizer and a neutralizer in the bathroom, on counters or clothing.

Since **VINEGAR** neutralizes alkaline substances, it is a good reason to use it as a rinse agent for laundry. **VINEGAR** can inactivate alkaline residues of bleach, chlorine, soaps and detergents that may linger after washing.

VINEGAR also eliminates calcium, lime and other alkaline deposits, and is thus very effective in the removal of hard water deposits.

Moreover **VINEGAR** is a mild bleaching agent in itself, the same as lemon juice. **VINEGAR** is a very mild acidic product, safe enough to use on your skin and hair so you can use it as a deodorizer for your underarms. Vinegar itself has a very strong - and to some, offensive odor (that disappears rather quickly.)

DIRECTIONS FOR USE

A quarter cup in a quart of water makes a good window cleaner.

To keep a freshly cleaned oven from stinking up next time you bake something, wipe it with **VINEGAR** as a final rinse. It neutralizes the harsh alkali of oven cleaners.

Consult a GILCO representative for more information.

PROPERTIES

Appearance :	Liquid
pH (1% solution) :	~2.0
Solubility :	Instant
Fragrance :	Typical
Color	clear

PRECAUTIONS

PACKAGING CODE

1 L

12 x 1 L

4 L

4 x 4 L

20 L

Do not use on food contact surfaces. Do not store in food processing or food storage areas. Do not contaminate food products.

ALL SURFACES SUBJECT TO CONTACT WITH FOOD MUST BE RINSED WITH POTABLE WATER BEFORE USE.
